IMPACT FROM HUMANS ON THE OPEN OCEAN

Oceans around the world are becoming degraded. Evidence shows that **human** activities, including intense fishing around the world, are altering **ocean**. The main areas of **human impact** can be divided into those related to **ocean pollution**. **Humans** have a lot of 'waste' that is often disposed of in the **ocean** - trash,. . But scientists sometimes disagree so it is important to keep an **open** mind.In some cases, our **impact** on the **ocean** has been harmful, from pollution, overfishing,. In other cases, **human** interaction has been positive, both accidentally, . **Human** activity can affect the **ocean** and the creatures that live in it in many. Fishing boats can **impact** the **oceans** in other ways – fishing techniques, such as . For example one positive **human impact** on the **open ocean** is that we protect areas of the ocean and establish certain rules to protect animals from extinction.Feb 14, 2008 . Revealed: polluting **impact** of **humans** on the **oceans** melting of polar sea ice, which enables ships to sail through larger areas of **open** water.Feb 15, 2008 . The study synthesized global data on **human impacts** to marine impacted ecosystems are soft-bottom areas and **open-ocean** surface waters.Feb 14, 2008 . Ocean atlas showing **human impacts**. Soft-bottom ecosystems and the **open ocean** fared best, but even these were not pristine in the majority . We then provide a summary of the ways that **humans impact open-ocean** diversity. A simple theoretical framework is then given that couples ocean biodiversity.Mar 11, 2009 . **Human** activities, both knowingly and unknowingly, negatively affect the **ocean**. A team of 19 scientists, including one from NOAA, undertook .

Humans on the open

Oil wastes that enter **the ocean** come **from** many sources, some being accidental spills or leaks, and some being **the** results of chronic and careless habits in.

FROM HUMANS ON THE OPEN

Oil wastes that enter the ocean come from many sources, some being accidental spills or leaks, and some being the results of chronic and careless habits in. The inventor of the first thermometer is thought to have been a very famous Italian scientist called Galileo Galilei. Galileo's thermometer was " open " at one end. Curiosity makes you smarter. For lifelong learners of all ages, we share amazing topics in visual, short-form, mobile-friendly experiences.
